New and Improved Virtual Communities

Communicate With Your Members Through Improved Online Communities

As your chapter membership grows, it will be even more important for you to have a convenient and efficient way to share information with your members. The new and improved virtual communities will provide just that.

Aside from a new look and feel that mirrors the new ONS website, the virtual communities now feature a new navigation that includes your chapter directory as well as a link to the ONS member directory and more.

There's also a spot for the latest ONS news and information that staff will take care of populating for you.

In addition to serving as informational portals, the virtual communities will now be how you communicate with members through email announcements. You'll also be able to download your chapter membership roster on a monthly basis so that you know that you'll always have current information.

For more information on sending emails and downloading your roster, [see page 32–34](#).
